Lifted: E. 5th Street area precautionary boil water advisory

Kissimmee, Florida – The precautionary boil water advisory has been lifted. Customers are no longer advised to boil their water prior to consumption.

###

E. 5th Street area precautionary boil water advisory

Kissimmee, Florida - Toho Water Authority (Toho) is announcing that once service is restored, a precautionary boil water advisory will be in effect for customers located in the E. 5th Street area in St. Cloud (see map below).

This is due to a water line break in the area. Crews are on site, but a time for service restoration has yet to be determined. The precautionary boil water advisory will be in effect until lifted by Toho.

As a precautionary measure, customers are advised to boil their water for one minute prior to consumption (drinking, cooking, making ice, brushing teeth or washing dishes). As an alternative bottled water may be used. Water used for laundry or bathing/showering does not need to be boiled.

Once service is restored, a two-day minimum of regulatory testing is required to make sure the water meets drinking water standards. **An update will be provided Wednesday, November 26.**

For more information, contact Toho's customer service at 407-944-5000.
