

Once service is restored, a precautionary boil water advisory will be in effect for customers in the Maryland Avenue and 17th Street area

March 30, 2026) Toho Water Authority (Toho) is announcing that once service is restored, a precautionary boil water advisory will be in effect for customers located in the following areas (see map below):

- Maryland Avenue from 14th Street to 17th Street
- 411, 412 and 413 17th Street

This is due to a repair on a water line valve in the area. Service is expected to be restored by 12 noon. Schedules may change due to weather or unforeseen circumstances. The precautionary boil water advisory will be in effect until lifted by Toho.

As a precautionary measure, customers are advised to boil their water for one minute prior to consumption (drinking, cooking, making ice, brushing teeth or washing dishes). As an alternative bottled water may be used. Water used for laundry or bathing/showering does not need to be boiled.

Once service is restored, a two-day minimum of regulatory testing is required to make sure the water meets drinking water standards. An update will be provided by Wednesday, April 1.

For more information, contact Toho's customer service at 407-944-5000 or visit our News & Alerts section on tohowater.com.
