

FOR IMMEDIATE RELEASE

May 14, 2026

Once service is restored, a precautionary boil water advisory will be in effect for customers at 2950 Entry Point Blvd

Kissimmee, Florida - Once service is restored, a precautionary boil water advisory will be in effect for customers located at 2950 Entry Point Blvd in Kissimmee.

This is due to a water line break from a contractor performing work in the area. Service is expected to be restored by 7 p.m. Schedules may change due to weather or unforeseen circumstances. The precautionary boil water advisory will be in effect until lifted by Toho.

As a precautionary measure, customers are advised to boil their water for one minute prior to consumption (drinking, cooking, making ice, brushing teeth or washing dishes). As an alternative bottled water may be used. Water used for laundry or bathing/showering does not need to be boiled.

Once service is restored, a two-day minimum of regulatory testing is required to make sure the water meets drinking water standards. **An update will be provided by Saturday, May 16.**

For more information, contact Toho's customer service at 407-944-5000 or visit our News & Alerts section on tohowater.com.
