

4425-4499 W Vine Street service disruption/precautionary boil water advisory

08.17.26 – Toho Water Authority (Toho) customers located at the odd numbered addresses of 4425-4499 W Vine Street will experience a disruption of their water service starting at 12 a.m. on Friday, August 21 (see map below).

This interruption of service is necessary to continue the water line repairs in the area. Service is expected to be restored by 6 a.m. Schedules may change due to weather or unforeseen circumstances.

Once service is restored, customers are advised as a precautionary measure to boil their water for one minute prior to consumption (drinking, cooking, making ice, brushing teeth or washing dishes). As an alternative bottled water may be used. Water used for laundry or bathing/showering does not need to be boiled.

The precautionary boil water advisory will be in effect until lifted by Toho.

Once service is restored, a two-day minimum of regulatory testing is required to make sure the water meets drinking water standards. An update will be provided by Sunday, August 23.

For more information, contact Toho's customer service at 407-944-5000 or visit our News & Alerts section on tohowater.com.
