

Toho Water **Harmony WRF** Expansion

What This Project Brings to Our Community

To better serve our community, we are thoughtfully expanding our **Harmony Water Reclamation Facility** to substantially increase the amount of reclaimed (recycled) water we can treat. Capacity will increase output from 750,000 gallons a day up to 1.2 million gallons (roughly two Olympic-sized pools).

What Will Improve?

- Upsizing the pretreatment system to remove large solid materials from wastewater
- Expanding the aeration and clarification capacities
- Adding reuse storage and pumping capacity
- Extending the reuse main

2027

expansion is expected
to begin early this year

2028

construction is
scheduled to finish in
Sept. of '28

\$39M

anticipated cost to
significantly expand
production
