

Toho Water Hopkins Park Septic to Sewer

What This Project Brings to Our Community

We are excited to transition homes near Hopkins Park from septic systems to a modern central sewer infrastructure. As part of this effort, we are also relocating the local lift station to support the city's overall revitalization of the neighborhood. This project highlights strong intergovernmental collaboration across Osceola County—working together to deliver cleaner water, improved infrastructure, and equal environmental benefits for all community members.

2025

work began on this project in Aug. '25

2027

we plan to finish this project in April '27

\$3M

anticipated cost to improve services to this community
