

Toho Water Old Hickory Tree Rd. New Drinking Water Pipes

What This Project Brings to Our Community

At Toho, we deeply care to make sure everyone in our service area has access to both the cleanest drinking water and the best reclaimed (recycled) water available. As part of these efforts, we are extending drinking and reclaimed water pipes along Old Hickory Tree Rd. from Nolte Rd. to Hickory Tree Elementary School.

Project Pathway

2024

design began on this project in '24

2027

we plan to finish this project in '27

.6

of a mile of pipe is being trenched in
