

Toho Water

Toho Reservoir AWS Reclaimed Water Pipe Extension

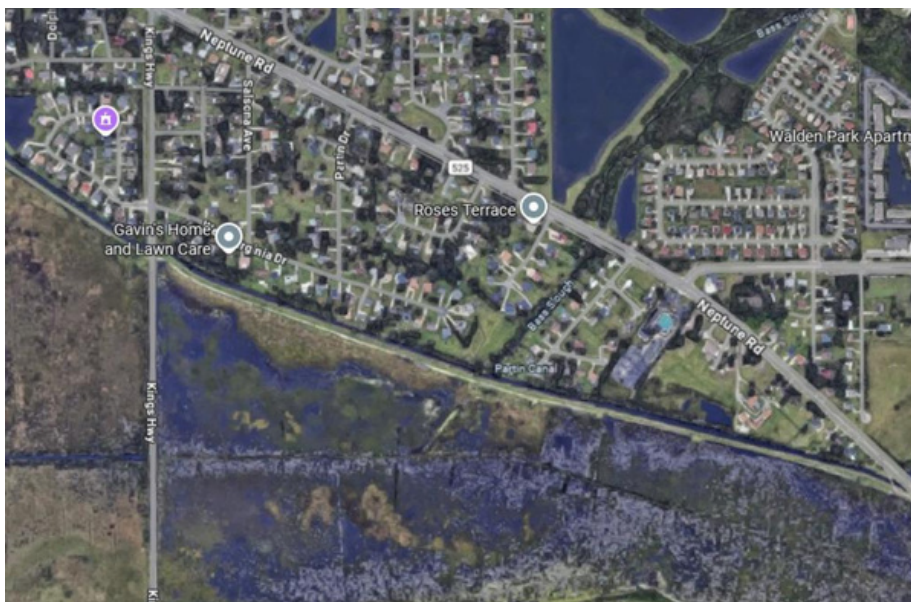

What This Project Brings to Our Community

We are proud to enhance our community's infrastructure by expanding our reclaimed (recycled) water network from NeoVation Way to Tohoqua.

How This Helps

- **Conserving Precious Resources:** By shifting existing irrigation systems in the Kindred and Tohoqua communities from drinking water to reliable reclaimed water, we significantly reduce the strain on our local potable water supplies.
- **Sustainable Supply:** This initiative is powered cleanly and efficiently by the Toho Reservoir Surface Water Treatment Facility, ensuring a dependable, eco-friendly source for neighborhood landscaping and irrigation needs.

2026

work begins on this project in Dec. '26

2027

we plan to finish this project in Dec. '27

\$13M

anticipated cost to improve services to this community
