Oakwood Drive area precautionary boil water advisory once service is restored

10.19.26 @ 9:30 p.m. - Service has been restored. The precautionary boil water advisory is in effect.

###

Oakwood Drive area precautionary boil water advisory once service is restored

10.19.26 - Toho Water Authority (Toho) is announcing that once service is restored, a precautionary boil water advisory will be in effect for customers located in the Oakwood Drive area (see map below).

This is due to a water line break in the area. A timeframe for service restoration is yet to be determined. The precautionary boil water advisory will be in effect until lifted by Toho.

As a precautionary measure, customers are advised to boil their water for one minute prior to consumption (drinking, cooking, making ice, brushing teeth or washing dishes). This includes filtered water. As an alternative bottled water may be used. Water used for laundry or bathing/showering does not need to be boiled.

Once service is restored, a two-day minimum of regulatory testing is required to make sure the water meets drinking water standards. **An update will be provided by Thursday, October 22.**

For more information, contact Toho's customer service at 407-944-5000 or visit our News & Alerts section on tohowater.com.
